Levels of care and legal aspects

We suggest you consult these documents related to levels of health care services and to relevant legal information.

Levels of health care services

The Institut national d'excellence en santé et services sociaux (**INESSS**) promotes excellence and the efficient use of resources in the health and social services sectors. The pamphlet below proposes to create openness to discussion surrounding care and treatment when a person is seriously ill to take a step to find out her or his preferences, in this regard, at the appropriate time.

Levels of care, let's talk about it:
